If you do not receive a confirmation number after submitting your online application, your application was **NOT** received by the Department of Civil Service. **No late applications will be accepted after the filing deadline has passed.**

SUBJECT OF EXAMINATION: There will be a **written test** which you must pass in order to be considered for appointment. The **written test** is designed to test for knowledge, skills, and/or abilities in such areas as:

1. **Accident prevention and control** - These questions test for knowledge of the principles and practices of accident prevention and control and may cover such areas as causes of accidents, accident rates, behavior and attitudes of workers and supervisors, accident investigations and interviewing techniques, and types of accident prevention and safety programs.
2. **Operation and maintenance of construction equipment, truck, and heavy highway maintenance equipment** - These questions test for knowledge of the operating characteristics of various components of construction equipment and heavy motor vehicle equipment and the proper maintenance and operating procedures to use with this equipment.
3. **Principles and practices of staff development and training** - These questions test for the knowledge and abilities used to develop and deliver training. They address topics such as the assessment of training needs; instructional design; training methods and techniques; the use of training aids, materials and technology; motivation; learning theory; classroom management; the evaluation of learning outcomes; and the usage of training-related data.
4. **Supervision** - These questions test for knowledge of the principles and practices employed in planning, organizing, and controlling the activities of a work unit toward predetermined objectives. The concepts covered, usually in a situational question format, include such topics as assigning and reviewing work; evaluating performance; maintaining work standards; motivating and developing subordinates; implementing procedural change; increasing efficiency; and dealing with problems of absenteeism, morale, and discipline.
5. **Work planning and scheduling** - These questions test for knowledge of the principles used in developing and implementing work plans and for the ability to arrange work assignments in a manner that will achieve work goals while staying within scheduling criteria. This may include setting up vacation or work schedules, taking into consideration such factors as seniority, work skills, duty hours, and shift coverage.

If you pass, your seniority credit(s), if any, will be included in the computation of your final score. Rank on the eligible list will be determined after adding any wartime veterans' credits to your final passing score.

CREDIT FOR SENIORITY: Seniority is credited at the rate of one credit for each five-year period (or fraction thereof), excluding the first year of service.
